Dialog®

Authoritative answers enriched by ProQuest

Authoritative answers enriched by ProQuest

The World's Best Information Services

Building on 35 years of service, Dialog continues to be the world's leading aggregator of intellectual property, scientific literature and business information from the most renowned publishers in the industry. Our extensive collection of Dialog® and DataStar® databases provide immediate, online access to the critical information you need to support all your research with accuracy and precision.

DISCOVER ■ VALIDATE ■ MARKET ■ INNOVATE

Dialog brings you the authoritative content, innovative tools and professional services to help you extract full value from our information solutions. The result fuels innovation, reduces development costs, minimizes risk and can help generate new market opportunities.

Who uses Dialog?

Dialog's powerful systems have long been used by librarians, information professionals and researchers. In addition, Dialog supports the needs of:

- Intellectual Property Specialists
- Legal Counsel
- Licensing Professionals
- Market and Competitive Intelligence Analysts
- Merger and Acquisition Managers
- R&D Leaders

Dialog®

As the world's first professional online service, Dialog paved the way for the information industry offering some of the most sophisticated search and retrieval tools available. Today, Dialog's customizable Web interfaces and powerful search language make this comprehensive content accessible to everyone—from the novice to the expert researcher. From concept testing to clinical trials, product launches to patent protection, Dialog gives you access to the critical information you need to make smart business decisions.

DataStar®

Offering an unparalleled collection of global databases with a special focus on pharmaceutical, biomedical, and healthcare-related content, along with Eurocentric business information and news, DataStar continues to revolutionize information delivery with an easy-to-use, customizable interface that generates precise results to suit your organization's specific needs.

Dialog can help you:

- Identify and capitalize on industry trends
- Develop effective market strategies
- Maximize research investments
- Expedite time-to-market
- Discover alternative product applications
- Monitor innovations and intellectual property
- Track new legislation and regulations
- Identify potential business partners, customers and competitors

PREMIUM CONTENT FROM AUTHORITATIVE SOURCES

Patents, Trademarks & Copyrights

With Dialog, you can review worldwide patent, trademark and copyright developments, view online patent images, and look up news on litigation, settlements and intellectual property regulations. Sources include CLAIMS®/UNITERM, Derwent World Patents Index®, IMS World Patents International and the extensive TRADEMARKSCAN® collection of databases. And, Dialog's collection of industry and technical information is an unparalleled resource for researching prior art.

Pharmaceutical, Biomedical & Life Sciences

Explore events on the frontiers of science by analyzing research issues, chemical discoveries and commercial developments. Track the drug pipeline and gain market intelligence on your competition by reviewing the latest research, market share information, legislation, drug registrations, licenses and clinical trials. Dialog offers the sources you rely on, including BIOSIS®, EMBASE®, IMS Health, MEDLINE®, PJB, Proux and more.

Business Intelligence & Market Research

Capitalize on industry trends, develop effective market strategies and maximize your research investments. Providing up-to-date company and industry intelligence covering over 500,000 companies worldwide, as well as market share and sales figures, business directories and financials on 14 million U.S. and international companies, Dialog gives you access to the industry's most valuable collection of competitive intelligence and market research from key sources like ABI/Inform, Cengage Gale, D&B, Datamonitor Market Research, *Harvard Business Review* and ProQuest, among others.

Engineering & Technology

Save time and money on R&D, monitor advancements in the industry, study regulatory information, track worldwide environmental issues, and discover alternative applications for your products with the authoritative content available on Dialog. Dialog's comprehensive engineering and technology information is provided by such sources as Adis, CSA, Ei Compendex®, Inspec and TULSA™.

COMPREHENSIVE CONTENT YOU CAN COUNT ON

- **Nearly 2 billion** records of authoritative content
- **144 million** patent records from 80 patent issuing authorities
- **27 million** trademark records from 31 countries
- **410 million** fulltext business news records covering 12,000 fulltext news sources
- **110 million** chemical substances
- **239 million** scientific and technical literature abstracts
- **121 million** biomedical and pharmaceutical literature abstracts
- **185 million** company information records
- **136 million** business and industry literature abstracts
