

Access fulltext data
from more than 26,000
publications

Dialog eLinks

The most comprehensive online information fulfillment resource

When to use it >>

- Save hours of time on document delivery
- Get the most out of your electronic journal subscriptions
- Link seamlessly to the journals to which you subscribe
- Access fulltext articles that fit specific search criteria
- Gain access to all text, images and graphics in online subscriptions
- Search more sources than any other online information service
- Get real-time statistics on your company's highest accessed journals

Who uses it >>

- Information managers
- Research and development professionals
- Chemists, biologists and biomedical professionals
- Engineers
- Science and technology departments
- Legal, licensing, and competitive intelligence professionals
- Government and higher education institutions

Leverage journal subscriptions to enhance your research

Get the most from your journal subscriptions and save hours of time on document delivery with Dialog eLinks. The e-journal linking service available through *Dialog*[®] and *DataStar*[®] seamlessly connects you to the fulltext of publications to which you already subscribe, providing information that complements your online search results and gives you a full perspective at no additional cost. Further, the Dialog eLinks Manager tool allows you to easily manage access to e-journals.

The eLinking service is convenient, connecting you to libraries maintained by your own organization or in-house research, as well as to web sites maintained by journal publishers. Combined, *Dialog* and *DataStar* offers access to more than 26,000 unique publications from over 600 publishers and aggregators.

For a list of participating aggregators and publishers, go to elinks.dialog.com/servlet/LinkManager.PublicationSearchServlet.

Streamline your research workflow

With Dialog eLinks, you can:

- > Link from abstract documents to fulltext
- > Navigate and link to precise information from specific journals contextually within research results
- > Receive custom personal Alert notifications with information updates
- > Link to journal subscriptions and library holdings for full context articles with images, diagrams and graphics
- > Efficiently maximize time while organizing search results with one common linking tool

Capture & share valuable data with decision makers

Dialog eLinks will enhance your research capabilities, while increasing return on investment of your current journal subscriptions. Achieve maximum potential using already-established resources, subscriptions,

relationships and licenses with specific aggregators and publishers. The Dialog eLinks Manager facilitates ease in management of eJournals, with tools to assess usage and to analyze effectiveness of current subscriptions.
